COMMITTEE ON
ENERGY AND NATURAL RESOURCES
WASHINGTON, D.C. 20510

March 15, 1984

The Honorable Pete V. Domenici
Chairman
Committee on the Budget
United States Senate
Washington, D.C. 20510

Dear Mr. Chairman:

In accordance with Section 301(c) of the Congressional Budget and Impoundment Control Act of 1974, enclosed is the report of the Committee on Energy and Natural Resources on the budget for Fiscal Year 1985. In the preparation of this report, the Committee held three days of hearings at which testimony was received from Administration witnesses. The recommendations of the Committee were approved on March 13, 1984, in a business meeting with a quorum present.

The Budget Committee has asked the Committee to make recommendations (1) for the total level of spending for all programs under the Committee's jurisdiction, focusing on increases or decreases from the CBO Current Services baseline and (2) for the total levels of net Federal direct loan obligations and new primary loan guarantee commitments again focusing on increases or decreases from the CBO Current Services baseline.

The Committee recommends to the Budget Committee that the programs within the jurisdiction of the Committee on Energy and Natural Resources be funded at the aggregate CBO Fiscal Year 1985 Current Services baseline for each functional area, except as noted herein: With respect to the General Sciences and Basic Research subfunction, the Committee recommends the President's proposed increase ($74 million) over the CBO Fiscal Year 1985 Current Services baseline for basic energy science research.

As noted, with respect to the Energy function the recommendation of the Committee is the CBO Fiscal Year 1985 Current Services baseline. The Committee has pending before it legislation (S. 2370) to fund the low-income energy assistance program, the DOE low-income weatherization program, and the schools and hospitals program from a special account to be created in the Treasury using the proceeds of oil pricing and allocation violations under the Emergency Petroleum Allocation

Act of 1973. The Committee supports the CBO Fiscal Year 1985 Current Services baseline for these three programs as the future of this oil overcharge legislation is by no means certain and even if it is enacted, there is at present only about $26 million of funds held in escrow which could be considered available to supplant funding of these programs from the general Treasury.

The Committee supports the efforts of the Secretary of Energy to restructure the breeder and advanced reactor program and believes some minimal budget changes may be needed to more fully implement this restructuring. Quantitative and qualitative program goals should be developed with the participation of industry and the national laboratories. These goals should be the measurement standards for establishing program decisions and priorities. A comprehensive market survey should be performed of government and industry needs for the breeder and advanced nuclear systems. This information will provide a context for the development of goals for the breeder and advanced reactor program. A uniform methodology that permits the evaluation of programs and projects to the goals should be developed. The Committee believes such an approach will provide a cost effective method for allocating program resources.

The Committee believes that the Department of Energy should continue its effort to redirect the base breeder program. The Department should give serious consideration to the metal fuel cycle for the breeder. A cost/benefit analysis should be performed to determine if adding a steam cycle to the Fast Flux Test Facility (FFTF) would be a cost effective way to lower annual operating costs at Hanford.

With regard to the Strategic Petroleum Reserve (SPR), the Committee notes the continuing conflict in the Persian Gulf and the everpresent threat of another severe world oil supply disruption. While the fill-rate requirements set forth in the Energy Emergency Preparedness Act of 1982 (P.L. 97-229) require an even higher fill-rate, the Committee believes that it would be irresponsible to fail to fill the SPR in Fiscal Year 1985 at a rate sufficient to fill all available SPR storage capacity in that fiscal year. Therefore, the Committee supports at a minimum the necessary funding levels to achieve that fill-rate. This is consistent with the Statement of Managers in the Fiscal year 1984 Interior Appropriations conference report (No. 98-399) which stated the expectation of the conferees that the fill-rate in Fiscal Year 1985 will be 186,000 barrels per day. Therefore, with respect to the off-budget portion of our jurisdiction, the Committee recommends the CBO Current Services baseline for the SPR petroleum acquisition account; this would correspond to an average annual fill-rate of 186,000 barrels per day during Fiscal Year 1985. The recommendation of the Committee, as does the President's proposed Fiscal Year 1985 budget, presumes the necessary funding for completion of the Big Hills, Texas, storage facility, consistent with the Statement of Managers in the Fiscal Year 1984 Interior Appropriations conference report.

With respect to the Environment and Natural Resources function, the recommendation of the Committee is a $300 million increase over the CBO Current Services baseline to provide the necessary flexibility to accommodate the President's new budget initiatives for such matters as increased timber sales and new Bureau of Reclamation activities. The Committee is opposed to the Administration's proposal to deduct the costs of royalty management and of payment-in-lieu-of-taxes from mineral leasing revenues prior to their disbursement to the States. The Committee also opposes changes in substantive law relating to national park entrance fees, transportation fees, or the crediting of recreation fees. In addition, the Committee does not support amending the Land and Water Conservation Fund Act to permit the use of these funds for maintenance and rehabilitation projects.

The Committee notes that the Administration has proposed language for inclusion in the Interior Appropriations Bill that would establish a new wetlands acquisition program (both Federal and State) using money from the Land and Water Conservation Fund. The Committee has under active consideration legislation (S. 1329) authorizing such a program. The Committee believes that any such program should be established through the regular legislative process.

With respect to the other General Government subfunction (806), the Committee recommends transfer from Foreign Economic and Financial Assistance subfunction (151) the funds requested by the President for the Compact of Free Association adjusted to account for duplicate activities. This amounts to a reduction of $295 million in subfunction 151 and an addition of $245 million in subfunction 806 to accommodate the transfer.

Within these aggregate CBO Current Services baseline for each budget function, the Committee has not made specific recommendations with regard to the individual programs comprising those functions. However, the Committee is concerned that certain programs within the Department of the Interior, and Department of Agriculture, be adequately funded. For example, in adopting this recommendation for the aggregate functional totals, the Committee anticipates that the following programs will be maintained within the CBO Baseline functional total at approximately the Fiscal Year 1985 Current Services baselines of program activity: Land and Water Conservation Fund (including the State grant program); Historic Preservation; and Urban Parks.

The Committee notes that in the case of the Department of Energy, the President's proposed budget assumes certain off-sets of funds from management initiatives. In such instances the Committee's recommendations assume the level of program activity before the off-sets are applied.

The Committee believes that these recommendations will ensure the maintenance on an aggregate basis of sufficient funding to continue energy and natural resource programs consistent with

current Congressional policy and the most recent Congressional action on Fiscal Year 1984 appropriations Acts and other applicable law.

The Committee recommendations assume that the Fiscal Year 1985 recommendation is continued on a Current Services basis through Fiscal Year 1989.

The Committee recommendation is accompanied by a list of Appropriations accounts either wholly or partially within the jurisdiction of the Committee (Appendix). We request that your staff make the necessary changes in the CBO data base so that these accounts will be assigned to the Committee for comment in the future; there were discrepencies in the February 8 list furnished to us for comment.

We look forward to a continuing coordination between our Committee and the Senate Budget Committee as the Session progresses. As our Committee's legislative program develops we will keep you advised of its budgetary significance.

Sincerely,

J. Bennett Johnston
Ranking Minority Member

James A. McClure
Chairman

## PREFACE

Section 301(c) of the Congressional Budget Act (Public Law 93-344), requires all standing committees in each House of the Congress to submit an annual report to the Budget Committee of their respective House. This annual report is due on or before March 15 of each year. The report of each committee is to contain--

(1) Comments on the general economic setting for the coming fiscal year with respect to the Committee's major areas of jurisdiction;

(2) A description of the programs and activities within the Committee's oversight jurisdiction and an analysis of the budget and revenue aspects of these programs and activities for the coming fiscal year;

(3) A description of the new programs and major program changes initiated in areas of jurisdictional responsibility of the Committee;

(4) Estimates of the new budgetary authority and budget outlays required by these programs for the current and coming fiscal year;

(5) Estimate of the budgetary impact of the legislative proposals of the President which fall into the area of jurisdictional responsibility for the Committee; and

(6) Comments on the budget estimates of the President for those programs already authorized for all or part of the coming fiscal year or for which authorization can be reasonably expected to continue without major changes.

This Committee print contains the report of the Committee on Energy and Natural Resources of the United States Senate on the President's proposed budget for Fiscal Year 1985. The Committee hopes that this document will prove a useful source of information for persons seeking to understand the operation and budgetary impact of the Federal programs and new activities which come under the jurisdiction of the Committee on Energy and Natural Resources. Sections 301(a) and 301(c) of the Congressional Budget Act are reprinted below:

* * * * * * * *

SECTIONS 301(a) AND 301(c) OF THE CONGRESSIONAL BUDGET ACT

SEC. 301(a) ACTION TO BE COMPLETED BY MAY 15.--On or before May 15 of each year, the Congress shall complete action on the first concurrent resolution on the budget for the fiscal year

beginning on October 1 of each year. The concurrent resolution shall set forth--

(1) the appropriate level of total budget outlays and of total new budget authority;

(2) an estimate of budget outlays and an appropriate level of new budget authority for each major functional category, for contingencies, and for undistributed intragovernmental transactions, based on allocations of the appropriate level of total budget outlays and of total new budget authority;

(3) the amount, if any, of the surplus or the deficit in the budget which is appropriate in light of economic conditions and all other relevant factors;

(4) the recommended level of Federal revenues and the amount, if any, by which the aggregate level of Federal revenues should be increased or decreased by bills and resolutions to be reported by the appropriate committees;

(5) the appropriate level of the public debt, and the amount, if any, by which the statutory limit on the public debt should be increased or decreased by bills and resolutions to be reported by the appropriate committees; and

(6) such other matters relating to the budget as may be appropriate to carry out the purposes of this act.

* * * * * * * *

SEC. 301(c). VIEWS AND ESTIMATES OF OTHER COMMITTEES.--On or before March 15 of each year, each standing committee of the House of Representatives shall submit to the Committee on the Budget of the House, each standing committee of the Senate shall submit to the Committee on the Budget of the Senate, and the Joint Economic Committee and Joint Committee on Internal Revenue Taxation shall submit to the Committees on the Budget of both Houses--

(1) Its views and estimates with respect to all matters set forth in subsection (a) which relate to matters within the respective jurisdiction or functions of such committee or joint committee; and

(2) Except in the case of such joint committees, the estimate of the total amounts of new budget authority, and budget outlays resulting therefrom, to be provided or authorized in all bills and resolutions within the jurisdictions of such committee which such committee intends to be effective during the fiscal year beginning on October 1 of such year.

The Joint Economic Committee shall also submit to the Committees on the Budget of both Houses, its recommendations as to the fiscal policy appropriate to the goals of the Employment Act of 1946. Any other committee of the House or Senate may submit to the Committee on the Budget of its House, and any other joint committee of the Congress may submit to the Committees on the Budget of both Houses, its views and estimates with respect to all matters set forth in subsection (a) which relate to matters within its jurisdiction or functions.

# I. OVERVIEW

## Background

The Committee on Energy and Natural Resources must submit its recommendations regarding the Fiscal Year 1985 budget to the Senate Budget Committee, as required by Section 301(c) of the Congressional Budget and Impoundment Control Act. The reporting date is March 15.

For those programs within its jurisdiction, the report of the Committee is to consider the proposals of the President in his 1985 budget, and other proposals, for changes from the CBO "Current Services" baseline. The Budget Committee has requested that the report contain certain blocks of information, as follows:

--The recommendations of the Committee for the five-year period for fiscal years 1985-89 with respect to total levels of spending (both budget authority and outlays), focusing on increases and decreases from the CBO Current Services baseline;

--The recommendations of the Committee for the same five-year period with respect to total levels of net Federal direct loan obligations and new primary loan guarantee committments, again focusing on increases and decreases from the CBO Current Services baseline; and

--a review of the legislative initiatives that the Committee expects to act on and their anticipated budget impacts.

Importantly, the report is to focus solely on any increases or decreases from the CBO Current Services baseline.

The CBO "Current Services" baseline assumes Fiscal Year 1984 levels of program activity are continued into Fiscal Year 1985 and through 1989. The assumed FY 1984 level of program activity includes any unobligated balances from fiscal year 1983. The assumed FY 1984 level of program activity does not reflect any proposed rescissions or deferrals. This Fiscal Year 1984 level of program activity is then projected through 1989 as the CBO Current Services baseline for comparison of policy changes.

The Committee recommendations also are to include a review of legislative activities that the Committee anticipates some legislative activity may occur on during this Congress and the anticipated budget impact of these initiatives.

Overview

The Federal budget is now divided into 17 broad functional areas. In addition there are the categories of allowances and undistributed off-setting receipts. The recommendations of the Committee are structured on the basis of these 17 broad functional areas. The principal functional areas of interest to the Committee are:

250 - General Science, Space, and Technology;
270 - Energy; and
300 - Natural Resources and Environment.

Other areas of partial concern are:

151 - Foreign Economic and Financial Assistance
450 - Community and Regional Development;
800 - General Government; and
850 - General Purpose Fiscal Assistance.

The agencies and programs (either totally or partially) within the jurisdiction of the Committee are as follows:

1. Funds Appropriated to the President:
   a. Naval Petroleum Reserves.

2. Department of Agriculture:
   a. Pollution control and abatement.
   b. U.S. Forest Service.

3. Department of Defense
   a. Corps of Engineers (Recreational Resources).
   b. Energy supply (Inactive).

4. Department of Energy.
   a. Atomic Energy Defense Activities.
   b. General Sciences, Space and Technology.
   c. Energy Supply.
   d. Energy Conservation.
   e. Energy Information, Policy, and Regulation.
   f. Emergency Energy Preparedness.
   g. Area and Regional Development.
   h. General Purpose Fiscal Assistance.
   i. Power Marketing Administrations.
   j. Departmental Administration.
   k. SPR Petroleum Acquisition (see off-budget).

5. Department of Housing and Urban Development.
   a. Solar Energy and Energy Conservation Bank.
   b. Community and Regional Development.

6. Department of the Interior.
   a. Bureau of Land Management.
   b. Bureau of Mines.
   c. Bureau of Reclamation.
   d. Geological Survey.
   e. Minerals Management Service.
   f. National Park Service.
   g. Office of the Secretary.
   h. Office of the Solicitor.
   i. Office of the Inspector General.
   j. Office of Surface Mine Reclamation and Enforcement.
   k. Office of Territorial Affairs.
   l. U.S. Fish and Wildlife (shared).

7. Department of State
   a. Foreign Economic and Financial Assistance.

8. Department of the Treasury
   a. Bureau of Governmental Financial Affairs (See Synthetic Fuels Corporation).
   b. U.S. Customs Service.

9. General Service Administration.
   a. General Property and Records Management.

10. Other Independent Agencies
   a. Advisory Council on Historic Preservation.
   b. National Science Foundation (shared).
   c. Native Hawaiians Study Commission.
   d. Office of the Federal Inspector for the Alaskan Natural Gas Transportation System.
   e. Pennsylvania Avenue Development Corporation.
   f. United States Holocaust Memorial Council.

11. Off-Budget Federal Entities.
   a. Emergency Energy Preparedness.
   b. Department of Energy.
   c. Department of the Interior.
   d. U.S. Synthetic Fuels Corporation.

In addition the Committee has jurisdiction over the following inactive agencies and programs: (a) Alaska Land Use Planning Commission; (b) Bureau of Indian Affairs (Alaska Native Fund); and (c) Department of the Treasury (Bureau of Revenue Sharing), in the case of territorial matters.

By the terms of the Congressional Budget Act, the recommendations of the Committee on Energy and Natural Resources to the Budget Committee are due on March 15, 1984.

## II. COMMITTEE ACTION

During the week of February 6, 1984, the Full Committee held hearings during which testimony was received from Interior Secretary William P. Clark (on February 7); Energy Secretary Donald Paul Hodel (on February 8); and Agriculture Assistant Secretary John B. Crowell, Jr., United States Synthetic Fuels Corporation Chairman Edward E. Noble, and Federal Energy Regulatory Commission Chairman Raymond J. O'Connor (on February 9).

Subsequently, on March 7 and 13, 1984, the Committee considered this report in business meetings. The following recommendations of the Committee were approved with a quorum present in a business meeting on March 13, 1984.

### Recommendation

The Budget Committee has asked the Committee to make recommendations (1) for the total level of spending for all programs under the Committee's jurisdiction, focusing on increases or decreases from the CBO Current Services baseline and (2) for the total levels of net Federal direct loan obligations and new primary loan guarantee commitments for all programs under the Committee's jurisdiction, again focusing on increases or decreases from the CBO Current Services baseline.

The Committee recommends to the Budget Committee that the programs within the jurisdiction of the Committee on Energy and Natural Resources be funded at the aggregate CBO Fiscal Year 1985 Current Services baseline for each functional area, except as noted herein: With respect to the General Sciences and Basic Research subfunction, the Committee recommends the President's proposed increase ($74 million) over the CBO Fiscal Year 1985 Current Services baseline for basic energy science research.

As noted, with respect to the Energy function the recommendation of the Committee is the CBO Fiscal Year 1985 Current Services baseline. The Committee has pending before it legislation (S. 2370) to fund the low-income energy assistance program, the DOE low-income weatherization program, and the schools and hospitals program from a special account to be created in the Treasury using the proceeds of oil pricing and allocation violations under the Emergency Petroleum Allocation Act of 1973. The Committee supports the CBO Fiscal Year 1985 Current Services baseline for these three programs as the future of this oil overcharge legislation is by no means certain and even if it is enacted, there is at present only about $26 million of funds held in escrow which could be considered available to supplant funding of these programs from the general Treasury.

The Committee supports the efforts of the Secretary of Energy to restructure the breeder and advanced reactor program and believes some minimal budget changes may be needed to more fully implement this restructuring. Quantitative and qualitative program goals should be developed with the participation of industry and the national laboratories. These goals should be the measurement standards for establishing program decisions and priorities. A comprehensive market survey should be performed of government and industry needs for the breeder and advanced nuclear systems. This information will provide a context for the development of goals for the breeder and advanced reactor program. A uniform methodology that permits the evaluation of programs and projects to the goals should be developed. The Committee believes such an approach will provide a cost effective method for allocating program resources.

The Committee believes that the Department of Energy should continue its effort to redirect the base breeder program. The Department should give serious consideration to the metal fuel cycle for the breeder. A cost/benefit analysis should be performed to determine if adding a steam cycle to Fast Flux Test Facility (FFTF) would be a cost effective way to lower annual operating costs at Hanford.

With regard to the Strategic Petroleum Reserve (SPR), the Committee notes the continuing conflict in the Persian Gulf and the everpresent threat of another severe world oil supply disruption. While the fill-rate requirements set forth in the Energy Emergency Preparedness Act of 1982 (P.L. 97-229) require an even higher fill-rate, the Committee believes that it would be irresponsible to fail to fill the SPR in Fiscal Year 1985 at a rate sufficient to fill all available SPR storage capacity in that fiscal year. Therefore, the Committee supports at a minimum the necessary funding levels to achieve that fill-rate. This is consistent with the Statement of Managers in the Fiscal Year 1984 Interior Appropriations conference report (No. 98-399) which stated the expectation of the conferees that the fill-rate in Fiscal Year 1985 will be 186,000 barrels per day. Therefore, with respect to the off-budget portion of our jurisdiction, the Committee recommends the CBO Current Services baseline for the SPR petroleum acquisition account; this would correspond to an average annual fill-rate of 186,000 barrels per day during Fiscal Year 1985. The recommendation of the Committee, as does the President's proposed Fiscal Year 1985 budget, presumes the necessary funding for completion of the Big Hills, Texas, storage facility, consistent with the Statement of Managers in the Fiscal Year 1984 Interior Appropriations conference report.

With respect to the Environment and Natural Resources function, the recommendation of the Committee is a $300 million increase over the CBO Current Services baseline to provide the necessary flexibility to accommodate the President's new budget initiatives for such matters as increased timber sales and new

Bureau of Reclamation activities. The Committee is opposed to the Administration's proposal to deduct the costs of royalty management and of payment-in-lieu-of-taxes from mineral leasing revenues prior to their disbursement to the States. The Committee also opposes changes in substantive law relating to national park entrance fees, transportation fees, or the crediting of recreation fees. In addition, the Committee does not support amending the Land and Water Conservation Fund Act to permit the use of these funds for maintenance and rehabilitation projects.

The Committee notes that the Administration has proposed language for inclusion in the Interior Appropriations Bill that would establish a new wetlands acquisition program (both Federal and State) using money from the Land and Water Conservation Fund. The Committee has under active consideration legislation (S. 1329) authorizing such a program. The Committee believes that any such program should be established through the regular legislative process.

With respect to the other General Government subfunction (806), the Committee recommends transfer from Foreign Economic and Financial Assistance subfunction (151) the funds requested by the President for the Compact of Free Association adjusted to account for duplicate activities. This amounts to a reduction of $295 million in subfunction 151 and an addition of $245 million in subfunction 806 to accommodate the transfer.

Within these aggregate CBO Current Services baseline for each budget function, the Committee has not made specific recommendations with regard to the individual programs comprising those functions. However, the Committee is concerned that certain programs within the Department of the Interior, and Department of Agriculture, be adequately funded. For example, in adopting this recommendation for the aggregate functional totals, the Committee anticipates that the following programs will be maintained within the CBO Baseline functional total at approximately the Fiscal Year 1985 Current Services baselines of program activity: Land and Water Conservation Fund (including the State grant program); Historic Preservation; and Urban Parks.

The Committee notes that in the case of the Department of Energy, the President's proposed budget assumes certain off-sets of funds from management initiatives. In such instances the Committee's recommendations assume the level of program activity before the off-sets are applied.

The Committee believes that these recommendations will ensure the maintenance on an aggregate basis of sufficient funding to continue energy and natural resource programs consistent with current Congressional policy and the most recent Congressional action on Fiscal Year 1984 appropriations Acts and other applicable law.

The Committee recommendations assume that the Fiscal Year 1985 recommendation is continued on a Current Services basis through Fiscal Year 1989.

The Committee recommendation is accompanied by a list of Appropriations accounts either wholly or partially within the jurisdiction of the Committee (Appendix). We request that your staff make the necessary changes in the CBO data base so that these accounts will be assigned to the Committee for comment in the future; there were discrepencies in the list February 8 furnished to us for comment.

FOOTNOTES

a. Includes programs of the Department of Energy and National Science Foundation (U.S. Antarctic programs).

b. Includes programs of the funds appropriated to the President, Department of Energy, Department of Housing and Urban Development, Department of the Interior, Department of the Treasury, and Office of the Federal Inspector for the Alaska Natural Gas Transportation System.

c. Includes programs of the Advisory Council on Historic Preservation, Department of Agriculture, Department of Defense, and Department of the Interior.

d. Includes programs of the Alaska Land Use Planning Commission, Department of Energy, Department of Housing and Urban Development, and Pennsylvania Avenue Development Corporation.

e. Includes programs of the Department of the Interior, General Services Administration, and United States Holocaust Memorial Council.

f. Includes programs of the Department of the Interior and Department of the Treasury.

g. Reflects the transfer of the adjusted funding requested for by President for the Compact of Free Association.

## III. LEGISLATIVE ACTIVITIES

The following list contains those measures within the jurisdiction of the Committee on Energy and Natural Resources which the Committee has acted on, or anticipates some legislative activity may occur on, during this Congress. The Committee also will be considering a number of other measures not reflected herein; however, it is anticipated that such measures will not require funding for Fiscal Year 1985.

### A. Energy

BPA ANNUAL BUDGET REVIEW

The Committee may consider S. 623, the Bonneville Power Administration Regional Accountability Act of 1983, a bill to provide for annual budget review of the Bonneville Power Administration by the Pacific Northwest Electric Power and Conservation Planning Council.

The anticipated budgetary impact of this measure is not available at this time.

BPA/WPPSS

The Committee may consider S. 1701, a bill to impose specific directives on the Bonneville Power Administration. The anticipated budgetary impact of this measure is not available at this time.

COAL RESEARCH AND DEVELOPMENT, INCLUDING MHD

The Committee may consider legislation regarding coal research and development. Currently pending before the Committee are related proposals such as --

-- S. 1925, the National Coal Science, Technology, and Engineering Development Act of 1983; and

-- S. 1278, Magnetohydrodynamics Research, Development and Demonstration Policy Act of 1983.

The anticipated budgetary impact of these measures is not available at this time.

DEPARTMENT OF ENERGY AUTHORIZATION, FISCAL YEAR 1985

The Committee may consider a bill (by request) to authorize appropriations for Department of Energy programs for Fiscal Year 1985, along with related legislation. The anticipated budgetary impact of this measure is not available at this time.

DISTRICT HEATING AND COOLING, AND MUNICIPAL WASTES

The Committee may consider S. 2076, a bill to extend the financing authority of the Synthetic Fuels Corporation to include projects for district heating and cooling and for municipal wastes energy recovery.

The anticipated budgetary impact of this measure is not available at this time.

ENERGY EMERGENCY PREPAREDNESS

The full Committee held oversight hearings on the status of the United States' energy emergency preparedness and the various reports transmitted by the Administration to the Congress in accordance with the Energy Emergency Preparedness Act of 1982. These reports, some of which indicate possible legislative initiatives, include:

(1) Memorandum of Law
(2) Comprehensive Energy Emergency Response Procedures
(3) Strategic Petroleum Reserve Drawdown Plan
(4) Strategic Petroleum Reserve Drawdown and Distribution Report
(5) Regional Petroleum Reserves
(6) Strategic Alcohol Fuel Reserve

Subsequently, the Committee held hearings on S. 1678, the Energy Emergency Preparedness Act Amendments of 1983. This measure is currently pending on the markup agenda of the Committee. In addition, S. 2384, the Emergency Preparedness Act of 1984, is pending before the Committee.

The anticipated budgetary impact of this measure is not available at this time.

ENERGY INFORMATION ADMINISTRATION REPORTS REDUCTION

Currently pending before the Committee is S. 2081, the Energy Information Administration Reports Reduction Act, introduced at the request of the Administration. If such legislation is enacted, it is anticipated that there will be a reduction in budgetary authority for the affected programs.

EXPORT OF RENEWABLE ENERGY TECHNOLOGY

The Committee may consider H.R. 3169, the Renewable Energy Industry Development Act of 1983, a bill to facilitate commerce by the domestic renewable energy industry and related service industry. The budgetary impact of this measure as estimated by the Congressional Budget Office appears in H. Rept. 98-537.

FERC: FALLING WATER HYDROELECTRIC FEES

The Committee has reported S. 1132, a bill to amend the Federal Power Act to specify the annual charges for projects with licenses issued by the Federal Energy Regulatory Commission for the use of Federal dams.

If such legislation is enacted, according to the Congressional Budget Office, there will be increased Federal revenues in Fiscal Year 1984 (See S. Rept. 98-363).

HYDROGEN RESEARCH AND DEVELOPMENT

The Committee may consider S. 652, the Hydrogen Research and Development Act. The measure authorizes $75 million.

INTERNATIONAL ENERGY AUTHORITIES EXTENSION

Currently pending in conference is H.R. 4194, a bill to extend the expiration date of section 252 of the Energy Policy and Conservation Act. This provision expired on December 31, 1983.

If such legislation is enacted it is anticipated that there would be little, if any, budgetary impact.

NATURAL GAS

Currently pending on the Senate Calendar is S. 1715, the Natural Gas Policy Act Amendments of 1983.

If such legislation is enacted, it is anticipated that any budgetary impact could be accommodated within available appropriations.

NEW ENGLAND POWER AUTHORITY

The Committee may consider S. 670, the New England Regional Power Planning and Distribution Act of 1983, a bill

to establish a New England Regional Power Planning and Distribution Authority, and for other purposes.

The anticipated budgetary impact of this measure is not available at this time.

PETROLEUM OVERCHARGE RESTITUTION ACT

The Committee may consider S. 2370 (by request), the Petroleum Overcharge Restitution Act. If such legislation is enacted, there would be a reduction in Federal budgetary authority for the affected programs.

SOLAR ENERGY LEGISLATION

The Committee may consider S. 1780, the Solar Energy National Security and Employment Act of 1983. The measure authorizes $250 million for each of fiscal years 1985 through 1990.

STATE AND LOCAL ENERGY CONSERVATION GRANTS

The Department of Energy currently funds a number of Federal categorical energy grant programs including weatherization assistance for low-income persons, energy extension service, energy conservation grants for schools and hospitals, and State emergency conservation planning, among others. Currently pending before the Committee is related legislation such as S. 2287 (by request), the Petroleum Consumer Overcharge Restitution Act, and H.R. 2615, the Weatherization and Employment Act of 1983. The Committee may consider such legislation, and other related measures. However, the anticipated budgetary impact of these measures is not available at this time.

B. Natural Resources

AFRICATOWN, U.S.A.

The Committee may consider S. 345, a bill to establish a national historic park at AfricaTown, U.S.A. (Prichard and Mobile), Alabama.

The anticipated budgetary impact of this measure is not available at this time.

AMENDMENT TO P.L. 95-244

The Committee may consider S. 600, a bill to amend Public Law 95-244 to authorize payments to appropriate school districts within or near the Grand Canyon National Park.

The anticipated budgetary impact of this measure is not available at this time.

AMERICAN CONSERVATION CORPS ACT OF 1983

Currently pending before the Senate is H.R. 999, the "American Conservation Corps Act of 1983".

The budgetary impact as estimated by the Congressional Budget Office appears in S. Rept. 98-140.

ALASKA HUNTING

Currently pending on the Senate calendar is S. 49, a bill to redesignate public land in Alaska to allow hunting.

The budgetary impact as estimated by the Congressional Budget Office appears in S.Rept. 98-281.

ALBEN BARKLEY

Currently pending before the House is S. 886, a bill to designate the Alben Barkley National Historic Site.

The budgetary impact as estimated by the Congressional Budget Office appears in S.Rept. 98-136.

ARAVAIPA CANYON WILDERNESS

Currently pending before the House is S. 626, the "Aravaipa Canyon Wilderness Act".

The budgetary impact as estimated by the Congressional Budget Office appears in S.Rept. 98-209.

ART BARN AND PIERCE MILL

The Committee may consider S. 1790, a bill to authorize the Secretary of the Interior to enter into a contract or cooperative agreement with the Art Barn Association to assist in the preservation and interpretation of the Art Barn and Pierce Mill located in Rock Creek Park within the District of

Columbia. The anticipated budgetary impact of this measure is not available at this time.

BUREAU OF RECLAMATION/FEASIBILITY STUDIES

Currently pending before the Senate is S. 622, a bill to authorize the Secretary of the Interior to undertake feasibility investigations for certain proposals. The budgetary impact as estimated by the Congressional Budget Office appears in S.Rept. 98-271.

In addition, the Committee may consider other legislation affecting Bureau of Reclamation projects. Currently pending before the Committee are --

-- S. 2290, authorizing the Folsom South unit, American River division, Central Valley project, California;

-- S. 681, a bill to authorize a feasibility study of water resource development in the Central Platte Valley, Nebraska;

-- S. 2068, a bill to provide funds for construction of irrigation facilities in the Pleasant Valley Water District, California; and

-- S. 1981, the Small Reclamation Projects Act of 1956 Amendments.

The anticipated budgetary impacts of these measures is not available at this time.

CAPE HATTERAS HIGHWAY

The Committee may consider S. 565, a bill requiring the Secretary of the Interior to enter into an agreement with the State of North Carolina with respect to the repair and maintenance of a certain highway of such State located within Cape Hatteras National Seashore Recreational Area. The anticipated budgetary impact of this measure is not available at this time.

CHATTAHOOCHEE RIVER NATIONAL RECREATION AREA, GEORGIA

The Committee may consider S. 1218, a bill to amend the Act of August 15, 1978, regarding the Chattahoochee River National Recreation Area in the State of Georgia.

The anticipated budgetary impact of this measure is not available at this time.

COAL SLURRY

Currently pending on the Senate Calendar is S. 267, the Coal Distribution and Utilization Act of 1983. The budgetary impact of this measure as estimated by the Congressional Budget Office appears in S. Rept. 98-61.

COLORADO RIVER POWER SYSTEM P.I.L.T.

The Committee may consider S. 1190, a bill to provide for payments in lieu of taxes to appropriate units of local government with the Federal Columbia River power system. The anticipated budgetary impact of this measure is not available at this time.

COLORADO RIVER BASIN SALINITY CONTROL

The Committee may consider S. 752, to authorize certain additional measures to assure accomplishment of the objective of Title II of the Colorado River Basin Salinity Control Act, and for other purposes. The anticipated budgetary impact of this measure is not available at this time.

COLUMBIA RIVER GORGE

The Committee may consider S. 627, the Columbia River Gorge Act of 1983.

The anticipated budgetary impact of this measure is not available at this time.

CORONADO NATIONAL FOREST

The Committee may consider S. 2132, a bill to extend special use authorizations to owners of recreation residences within the Coronado National Forest. The anticipated budgetary impact of this measure is not available at this time.

CUYAHOGA VALLEY NATIONAL RECREATION AREA

The Committee may consider S. 2133, a bill to provide authority to reduce erosion within the Cuyahoga Valley

Recreation Area. The anticipated budgetary impact of this measure is not available at this time.

DESERT PUPFISH NATIONAL WILDLIFE REFUGE, NEVADA

The Committee may consider S. 84, a bill to establish the Desert Pupfish National Wildlife Refuge, Nevada. The anticipated budgetary impact of this measure is not available at this time.

EL PORTAL LEASES

The Committee may consider H.R. 3506, an act to authorize additional long-term leases in the El Portal administrative site adjacent to Yosemite National Park, California. The budgetary impact of this measure as estimated by the Congressional Budget Office appears in H.Rept. 98-561.

FEDERAL COAL LEASING ACT AMENDMENTS

The Committee expects to consider S. 1634, a bill to amend the Mineral Lands Leasing Act of 1920.

The anticipated budgetary impact of this measure is not available at this time.

FLPMA AMENDMENTS

Currently pending before the House is S. 612, to amend the Federal Land Policy and Management Act of 1976 (43 U.S.C. 1701) to permit temporary use by Federal departments and agencies of public lands controlled by the Bureau of Land Management, Department of the Interior.

According to the Congressional Budget Office, "it is expected that no significant cost to federal, state or local governments would be incurred as a result of enactment of this bill.

FLPMA FEE EXEMPTIONS

The Committee may consider a bill to exempt entities receiving financial assistance from the Rural Electrification Administration from fees under the Federal Land Policy and Management Act of 1976. The anticipated budgetary impact of this measure is not available at this time.

FLPMA IRRIGATION SYSTEMS EXEMPTION

The Committee may consider H.R. 2982, a bill to exempt irrigation conveyance systems from fees and conditions under the Federal Land Policy and Management Act of 1976, and for other purposes. The anticipated budgetary impact of this measure is not available at this time.

FREDERICK LAW OLMSTED

The Committee may consider S. 2082, a bill to identify, commemorate, and preserve the legacy of historic landscapes of Frederick Law Olmsted and for other purposes. The anticipated budgetary impact of this measure is not available at this time.

GEOTHERMAL STEAM ACT AMENDMENTS

The Committee may consider (S. 558), or another bill (S. 883), to amend the Geothermal Steam Act of 1970 (30 U.S.C. 1001 et seq.) to expedite exploration and development of geothermal resources. These measures are currently pending on the markup agenda of the Committee.

The anticipated budgetary impact of this measure is not available at this time.

GRAZING ADVISORY BOARD

The Committee may consider S. 920, a bill to make the Grazing Advisory Boards established under the Federal Land Policy Management Act of 1976 permanent.

The anticipated budgetary impact of this measure is not available at this time.

GUNNISON NATIONAL MONUMENT

The Committee may consider S. 2015, a bill to establish a boundary for the Black Canyon of the Gunnison National Monument, and for other purposes.

The anticipated budgetary impact of this measure is not available at this time.

HIGH PLAINS STATES GROUNDWATER RECHARGE STUDY

The Committee may consider S. 997, S. 1811 or H.R. 71, bills to authorize and direct the Secretary of the Interior to engage in a special study of the potential for groundwater recharge in the High Plains States, and for other purposes.

The anticipated budgetary impact of these measures is not available at this time; however, the budgetary impact of H.R. 71 as estimated by the Congressional Budget Office appears in H. Rept. 98-167.

HISTORIC AMERICAN BUILDING SURVEY

Currently pending before the House is S.J. Res. 173, a joint resolution commending the Historic American Buildings Survey, a program of the National Park Service, Department of the Interior.

The budgetary impact as estimated by the Congressional Budget Office appears in S.Rept. 98-311.

HISTORIC SHIPWRECKS

The Committee may consider S. 1504, a bill to provide for protection of historic shipwrecks, structures, and artifacts located on a seabed or in the subsoil of the lands beneath waters of the United States.

The budgetary impact of this measure is not available at this time.

HYDROELECTRIC POWER

Currently pending before the House is S. 268, a bill to authorize the Secretary of the Interior to construct, operate, and maintain hydroelectric powerplants at various existing water projects, and for other purposes.

The budgetary impact as estimated by the Congressional Budget Office appears in S.Rept. 98-137.

HYDRODEVELOPMENT CONTRACTING

The Committee may consider S. 1521, the "Reclamation Hydroelectric Act of 1983".

The anticipated budgetary impact of this measure is not available at this time.

IDAHO DESERT LAND ENTRYMEN

Pending before the Senate is S. 482, a bill to provide relief for certain desert land entrymen in the State of Idaho.

The budgetary impact as estimated by CBO appears in S.Rept. 98-254.

ILLINOIS-MICHIGAN CANAL

S. 746, the Illinois and Michigan Canal National Heritage Corridor Act of 1983, has passed both the Senate and House in different forms.

The budgetary impact as estimated by the Congressional Budget Office appears in S.Rept. 98-355.

INDIAN PRIMACY LEGISLATION

The Committee may consider a bill, if passed by the House, or introduced in the Senate, concerning Indian primacy with respect to application of the Surface Mining Control and Reclamation Act.

The anticipated budgetary impact is not available at this time.

IRISH WILDERNESS

S. 64, the Irish Wilderness Act of 1983, passed both the Senate and the House. The measure would establish the Irish Wilderness in Mark Twain National Forest, Missouri.

The budgetary impact as estimated by the Congressional Budget Office appears in S.Rept. 98-45.

LAND CONVEYANCES

The Committee expects to consider various land conveyance measures. Currently pending before the Committee are the following proposals:

-- California Land Conveyance (H.R. 451);
-- California-Nevada Boundary (S. 1860);
-- Central Pacific Railway (S. 1564 and H.R. 451);
-- Death Valley Monument (S. 1389);
-- Dona Ana County, New Mexico (S. 1859);
-- Douglas County, Nevada (S. 1160);

-- Olathe, Colorado (S. 1547);
-- Louisiana Mineral Interests (S. 1995);
-- Payson, Arizona Land Conveyance (S. 598);
-- Scotts Bluff County, Nebraska (S. 1629);
-- South Carolina (S. 648); and
-- Wrightsville Beach and Roswell Test Facilities (S. 1659).

The anticipated budgetary impacts of these measures are not available at this time.

McCLINTOCK HOUSE, WATERLOO, N.Y.

The Committee may consider S. 2331, a bill to amend section 1601(d) of Public Law 96-607 to permit the Secretary of the Interior to acquire title in fee simple to McClintock House, Waterloo, New York.

The anticipated budgetary impact of this measure is not available at this time.

MONO LAKE NATIONAL MONUMENT, CALIFORNIA

The Committee may consider S. 1331 or H.R. 1341, bills to establish the Mono Lake National Monument in the State of California, and for other purposes.

The anticipated budgetary impact of this measure is not available at this time.

NATIONAL FOREST SYSTEM SALES

The Committee may consider S. Res. 93, a resolution to oppose the massive selloff of national forest system land. No budgetary impact is anticipated from Senate passage.

NATIONAL MARITIME MUSEUM

The Committee may consider S. 1647, a bill to authorize the use of funds from rental of floating drydock and other marine equipment to support the National Maritime Museum in San Francisco, California.

If such legislation is enacted it is anticipated that there would be a reduced requirement for Federal appropriations.

NATIONAL PARK SYSTEM PROTECTION

The Committee may consider H.R. 2379, an act to provide for the protection and management of the national park system, and for other purposes.

The budgetary impact of the measure as estimated by the Congressional Budget Office appears in H. Rept. 98-170.

NORTHWEST MIDWEST STATES FEDERAL HYDROPOWER FINANCING AUTHORITY

The Committee may consider S. 1255, a bill to allow the Northeast and Midwest states to form a Federal Hydropower Financing Authority.

The anticipated budgetary impact of this measure is not available at this time.

OIL AND GAS LEASE PRIVATE RELIEF BILLS

The Committee may consider legislation that would reinstate Federal oil and gas leases which have been terminated by operation of law.

If such legislation is enacted it is anticipated that there would be little, if any, budgetary impact.

O'KEEFFE NATIONAL HISTORIC SITE

Currently pending before the House is S. 1775, a bill to repeal the designation of the Georgia O'Keeffe National Historic Site.

The budgetary impact of this measure as estimated by the Congressional Budget Office appears in S.Rept. 98-310.

OMITTED LANDS

Currently pending on the Senate Calendar is S. 862, a bill to amend the Act of May 31, 1962 (76 Stat. 89).

The budgetary impact as estimated by the Congressional Budget Office appears in S.Rept. 98-255.

ONSHORE OIL AND GAS LEASING AMENDMENTS

The Committee may consider S. 581, a bill to establish competitive oil and gas leasing and modify leasing procedures for onshore Federal lands.

The budgetary impact of the measure is not available at this time.

OUTDOOR RECREATION

Currently pending before the House is S. 1090, the National Outdoor Recreation Resources Review Act of 1983.

The budgetary impact as estimated by the Congressional Budget Office appears in S.Rept. 98-299.

PICK-SLOAN MISSOURI RIVER BASIN REPAYMENT CONTRACT AMENDMENTS

The Committee may consider S. 1428, a bill to authorize amendments to certain repayment and water service contracts for the Frenchman unit of the Pick-Sloan Missouri River Basin project.

The anticipated budgetary impact of this measure is not available at this time.

PICTURED ROCKS NATIONAL LAKESHORE

The Committee may consider S. 620, a bill relating to Pictured Rocks National Lakeshore, requiring the development of a local land use plan and zoning regulations for the inland buffer zone.

The measure authorizes $6,873,000 for land acquisitions; $26,780,800 for the development of the Pictured Rocks National Lakeshore; and $350,000 annually for five years for maintenance and improvements of the National Lakeshore.

PONY EXPRESS TRAIL

The Committee may consider a S. 1695, a bill to authorize study of the Pony Express Trail under the provisions of the National Trails System Act.

The budgetary impact of the measure is not available at this time.

PUMP CASINGS

Currently pending before the House is S. 818, a bill to authorize the replacement of existing pump casings in the Robert B. Griffith water project pumping plants 1A and 2A

(formerly the Southern Nevada water project), and for other purposes.

The budgetary impact as estimated by the Congressional Budget Office appears in S.Rept. 98-143.

REA RIGHT OF WAY

The Committee may consider S. 508 and H.R. 2211, bills to exempt entities receiving financial assistance from the Rural Electrification Administration from fees under the Federal Land Policy and Management Act of 1976.

The anticipated budgetary impact of these measures is not available at this time.

SAFETY OF DAMS

Currently pending before the Senate is S. 672, a bill to amend the Reclamation Safety of Dams Act of 1978 to authorize additional appropriations, and for other purposes.

The budgetary impact as estimated by the Congressional Budget Office appears is S.Rept. 98-258.

SAINT CROIX NATIONAL MONUMENT

Currently pending before the House is S.J. Res. 25, a joint resolution redesignating the Saint Croix Island National Monument in the State of Maine as the "Saint Croix Island International Historic Site".

The budgetary impact as estimated by the Congressional Budget Office appears in S.Rept. 98-8. According to the Congressional Budget Office, it is expected that no significant additional cost to the federal government would be incurred as a result of enactment of this bill.

SAMUEL "UNCLE SAM" WILSON GRAVESITE

The Committee may consider S. 1007, a bill authorizing maintenance of the gravesite of Samuel "Uncle Sam" Wilson in commemoration of the progenitor of the national symbol of the United States.

The budgetary impact of the measure is not available at this time.

SANTA MARGARITA

Currently pending before the House is S. 805, a bill to amend the Act of July 28, 1954 (68 Stat. 575), to authorize the Secretary of the Interior to construct, operate, and maintain the Santa Margarita project, California, and for other purposes.

The budgetary impact as estimated by CBO appears in S.Rept. 98-139.

SHOW LOW

Currently pending at the desk, as amended by the House, is S. 613, a bill to convey certain lands to Show Low, Arizona.

The budgetary impact as estimated by the Congressional Budget Office appears in S.Rept. 98-12.

SITKA NATIONAL PARK

The Committee may consider S. 1688, a bill to modify the authorization of appropriations for Sitka National Park.

The measure would increase the authorization by $4,329,000.

SLEEPING BEAR DUNES

The Committee may consider S. 1868, a bill to increase the authorization for the Sleeping Bear National Lakeshore by $17,996,558 for new acquisitions.

STATE AND LOCAL RIVER CONSERVATION

The Committee may consider S. 1756, the State and Local River Conservation Act of 1983. The measure authorizes $2 million.

STATE MINING AND MINERAL INSTITUTES

The Committee may consider S. 2186, a bill to estabish a State mining and mineral resources research institute program, and for other purposes.

The measure authorizes (a) $300,000 for fiscal year 1985 and $400,000 for each of fiscal years 1986 through 1989 for

States assistance; (b) $7.5 million for fiscal year 1985, to be increased by $1 million for fiscal years 1986 through 1989 for institute grants; and (c) $1 million each year for administrative and publishing costs by the institutes.

SURFACE MINING CONTROL AND RECLAMATION ACT AMENDMENTS

The Committee may consider S. 1755, a bill to amend the Surface Mining Control and Reclamation Act of 1977 (SMCRA), to create a trust fund for the reclamation of underground mines and surface mines, and for other purposes.

The anticipated budgetary impact of this measure is not available at this time.

TIMBER CONTRACT LEGISLATION

The Committee may consider a bill, S. 916, to provide for the orderly termination, extension, or modification of certain contracts for the sale of Federal timber. (A related measure (S. 2805) was ordered reported by the Committee during the 97th Congress.)

The anticipated budgetary impact of this measure is not available at this time.

VERTEBRATE PALEONTOLOGICAL RESOURCES STUDY

The Committee may consider S. 1569, a bill to provide for the conservation and scientific study of vertebrate paleontological resources on public and Indian lands.

The budgetary impact is not available at this time.

VOLUNTEER GRANT PROGRAM

The Committee may consider S. 1756, the "State and Local River Conservation Act of 1983".

The measure authorizes $5 million each year for State grants; and $2 million each year for State river assessments.

VOLUNTEERS IN THE PARKS

Currently pending before the House is S. 864, a bill to amend the Volunteers in the Parks Act of 1969, and for other purposes.

The budgetary impact as estimated by the Congressional Budget Office appears in S.Rept. 98-208.

WETLANDS LEGISLATION

Pending before the Committee is S. 1329 (title II), the Emergency Wetlands Resources Act of 1983, a bill to extend until October 1, 1993, the authority for appropriations to promote the conservation of migratory waterfowl and to offset or prevent the serious loss of wetlands and other essential habitat, and for other purposes.

The budgetary impact as estimated by the Congressional Budget Office appears in S.Rept. 98-349.

WILD HORSES

Pending before the Senate is S. 457, to require the protection, management, and control of wild free-roaming horses and burros on public lands.

The budgetary impact as estimated by the Congressional Budget Office appears in S.Rept. 98-339.

WILD AND SCENIC RIVERS

The Committee expects to consider S. 1084, a bill to amend the Wild and Scenic Rivers Act to include additional rivers in the National Wild and Scenic Rivers System. In addition, currently pending before the Committee are the following proposals:

-- Illinois-Owyhee Rivers, Oregon (S. 416);
-- Toulumne River, California (S. 142); and
-- Wildcat River (S. 2095).

The anticipated budgetary impact of these measures is not available at this time.

WILDERNESS LEGISLATION

The Committee expects to consider legislation to establish new wilderness areas. Currently pending before the Committee are proposals to establish the following areas:

-- Arizona Strip Wilderness (S. 1611);
-- Arizona Wilderness (S. 2242);
-- Arkansas Wilderness (S. 2125);
-- Bisti Badlands Wilderness (S. 285);

-- California Wilderness (S. 1515 and H.R. 1437);
-- Florida Wilderness (H.R. 9 and S. 465);
-- Great Smokey Wilderness (S. 1947 and S. 2183);
-- Idaho Wilderness;
-- Montana Wilderness;
-- Nevada Wilderness;
-- Oregon Wilderness (H.R. 1149);
-- San Juan Basin Wilderness Protection Act; of 1983 (S. 1740);
-- Utah Wilderness (S. 2155)
-- Washington Wilderness (S. 837); and
-- Wyoming Wilderness (S. 543).

The anticipated budgetary impact of these measures is not available at this time.

WILLOW CREEK, IDAHO

The Committee may consider S. 483, a bill to provide for the relief of water users deprived winter stock of water on Willow Creek, Idaho, below the Ririe Dam and Reservoir.

The measure authorizes $300,000 to carry out its purposes.

WRIGHTSVILLE BEACH AND ROSWELL TEST FACILITIES

The Committee may consider S. 1659, a bill to require the Secretary of the Interior, under certain conditions, to convey the Wrightsville Beach Test Facility (a Federal desalting facility) to the town of Wrightsville Beach, North Carolina, and to convey the Roswell Test Facility (another Federal desalting facility) to the city of Roswell, New Mexico, and for other purposes.

The anticipated budgetary impact is not available at this time.

YAKIMA RIVER

The Committee has ordered reported S. 1027, and the House has passed H.R. 653, legislation authorizing the design, construction, operation, and maintenance of fish facilities within the Yakima River basin, Washington, and for other purposes.

The budgetary impact of the measure as estimated by the Congressional Budget Office will appear in the report of the Committee.

YOUTH EMPLOYMENT AND ECONOMIC ASSISTANCE ACT

Currently pending before the Senate is S. 724, Titles II and III, a bill to authorize the U.S. Army Corps of Engineers to undertake activities to provide new public works investment, grants to the several states to encourage and foster the construction of necessary public capital investment projects, to assist in creating new and productive jobs, and for other purposes.

The budgetary impact as estimated by the Congressional Budget Office appears in S.Rept. 98-94.

C. Territory Issues

COMPACT OF FREE ASSOCIATION

During 1982 and 1983, the Administration concluded negotiations to resolve the future political status of three political units of the Trust Territory of the Pacific Islands. The agreements have been approved in the United Nations observed plebescites and local government approval and certification has been accomplished in the Federated States of Micronesia and the Republic of the Marshall Islands. The Committee anticipates that the President will transmit the Compact to the Congress for approval for the Federated States of Micronesia and the Marshall Islands.

Prior to termination of the Trusteeship Agreement for the Trust Territory of the Pacific Islands, funding for the programs under the Compact can be accommodated within current authorizations. The Committee recommendation is that future funding continue under subfunction 806.

CONSTITUTION OF AMERICAN SAMOA

The Committee may consider the constitution of American Samoa which was transmitted to the Congress on February 23, 1984.

The budgetary impact of the measure is not available at this time.

JUDICIAL REFORM

The Committee may consider S. 1366, a bill to implement the recommendations of the Interim Report of the Northern Mariana Islands Commission on Federal Laws and to amend the

Revised Organic Act of the Virgin Islands and the Organic Act of Guam, and for other purposes.

The Committee does not anticipate any budgetary impact from the legislation.

OMNIBUS TERRITORIES MEASURE

The Committee anticipates a variety of specific territorial measures including new authorization for the Guam penitentiary and hospital, the Virgin Islands Water and Power system, and the Insular Development Bank.

The budgetary impact of these measures is not available at this time.

TERRITORIAL TAX SYSTEMS

Legislation is anticipated from both the Virgin Islands and the Northern Marianas.

Since all revenues are retained by the local goverment there will be no budget impact.
